--	-----	-----

Dental implants are not covered.

The above is a listing of common services available through your network of Participating Dentists.

The Member's share of the cost is determined by whether care is received from a Participating or Non-Participating Dentist.

****For services rendered by a Non-Participating Dentist (out of network), the Allowable Charge is the Provider's usual charge, not to exceed the amount that the Plan would reimburse a Participating Dentist rendering the same services. The Member will be responsible for the full amount by which the Non-Participating Dentist's actual charges exceed the Allowable Charge.**
