Interpreting the “PLB” Segment on the 835 ERA

There are reversals and corrections when claim adjudication results have been modified from a previous report. The method for revision is to reverse the entire claim and resend the modified data. Provider level adjustments are reported in the PLB segment within your 835 ERA from Blue Cross and Blue Shield of New Mexico (BCBSNM).

Adjustments in the PLB segment can either decrease the payment (**a positive number**) or increase the payment (**a negative number**). The sum of all claim payments (CLP04) minus the sum of all provider level adjustments (in the PLB segment) equals the total payment (BPR02). The information in the PLB segment must be taken into consideration for auto-posting of payments to your patient accounts.

Below are additional details regarding adjustment codes that may appear in the PLB segment, in accordance with the requirements as specified within the Health Insurance Portability and Accountability Act of 1996 (HIPAA) mandated Technical Report Type 3 (TR3)*. Questions may be directed to our Electronic Commerce Service Center at ecommerceservices@bcbsnm.com or 800-746-4614.

Please share this important information with your practice management software vendor, and/or your billing service or clearinghouse, if applicable.

Quarterly Pharmacy Changes Effective Jan. 1, 2018

Based on the availability of new prescription medications and Prime's National Pharmacy and Therapeutics Committee's review of changes in the pharmaceuticals market, some additions or drugs moving to a lower out-of-pocket payment level, revisions (drugs still covered but moved to a higher out-of-pocket payment level) and/or exclusions (drugs no longer covered) were made to the Blue Cross and Blue Shield of New Mexico (BCBSNM) drug lists. Your patient(s) may ask you about therapeutic or lower cost alternatives if their medication is affected by one of these changes. Changes that became effective Jan. 1, 2018, are outlined below.

Please Note: If you have patients with an individual benefit plan offered on/off the New Mexico Health Insurance Exchange, they may be impacted by annual drug list changes. You can view a list of these changes on our [Member Services website](#).

March into Colon Cancer Awareness Month

Did you know that in the United States, colorectal cancer (CRC) is the second largest cause of cancer deaths for men and women? This highly preventable disease kills more than 50,000 people per year. The [Centers for Disease Control and Prevention](#) (CDC) and [U.S. Preventive Services Task Force](#) (USPSTF) have published guidelines and information for both patients and providers regarding CRC screening. Both the CDC and the USPSTF recommend colorectal cancer screening starting at age 50. The best CRC screening test is the one that gets done! Follow the links above for more information about CRC and screening options.

Behavioral Health: Let's Talk About It!

In the third quarter of 2017, we conducted a survey to gather your feedback on the *Blue Review*. We are pleased to know that the content we provide in the newsletter is useful and presented in a user-friendly format. We were also pleased that so many of you responded with specific feedback about what you would like to see improved. Many of you asked for more information about behavioral health, and we want you to know that we heard you.

It's no secret that behavioral health issues are often kept quiet by those who are being treated for them. Sadly, some people may be unaware they have a treatable condition, or they may not have the support they need to find appropriate care. While embracing diversity may be a growing initiative in many work places, schools and other environments, persons with behavioral health conditions may still find themselves on the periphery as the social stigma surrounding mental health persists.

The first step to bridging the gap may be simply talking about behavioral health more. People with behavioral health issues should not feel embarrassed to come forward, particularly when it comes to reaching out to friends, family and health care providers who can help. To help get the discussion started, we'll be including more articles on behavioral health topics in the *Blue Review* over the coming months.

This month, we're spotlighting an article from our online magazine, *Making the Health Care System Work*. [The Intersection of Physical and Behavioral Health Care](#) explores some of the ways in which behavioral health and physical health symptoms can fuel each other, as well as some of the ways data analytics are helping Blue Cross and Blue Shield of New Mexico (BCBSNM) further integrate behavioral health.

In future issues of the *Blue Review*, we'll also be including more information on the behavioral health program at BCBSNM, which seeks to help identify members who may need education, care coordination and other types of support to help them better manage their health. We look forward to sharing information and resources with you that you can share with your patients who may be unaware, or who may know of someone else who may need help.

Blue Cross Community CentennialSM (Medicaid)

New Medicaid ID Numbers for Members

Effective Dec. 2, 2017, the New Mexico Human Services Department, Medical Assistance Division (HSD/MAD) will issue newly enrolled Medicaid members Medicaid ID numbers beginning with “00002” followed by nine (9) numbers.

Members who enrolled prior to Dec. 2, 2017, and who currently have a “00003” prefix will keep that same Medicaid ID number even if the member terms and reenrolls, changes category of eligibility or recertifies.

As a reminder, effective Jan. 1, 2018, HSD/MAD is no longer issuing Medicaid ID cards to Medicaid recipients who are enrolled with a Managed Care Organization. Medicaid recipients enrolled with Blue Cross Community Centennial will only receive a Blue Cross and Blue Shield of New Mexico-issued member ID card, which includes the member’s Blue Cross Community Centennial ID number and the state-issued Medicaid ID number.

If you have any questions regarding these changes, please contact your regional network provider representative at 1-800-567-8540.

Not yet contracted?

Providers who are participating in commercial BCBSNM products are not automatically participating providers in Blue Cross Community Centennial. If you are interested in becoming a Blue Cross Community Centennial provider, please call 505-837-8800 or 1-800-567-8540.

Reminder: Update your Enrollment Information

Due to Centennial Care requirements, all enrollment information (changes to demographics, licensure or certification, provider status, etc.) must be updated on the [NM Medicaid Provider Web Portal](#).

Such services are funded in part with the State of New Mexico.
