

Pharmacy Program Updates: Quarterly Pharmacy Changes Effective July 1, 2022 – Part 1

IMPORTANT PHARMACY BENEFIT REMINDERS

Jan. 1, 2022 is the start of a new year and renewed or new health insurance benefits for most Blue Cross and Blue Shield of New Mexico (BCBSNM) members. As you see your patients, please consider the following reminders:

- Members' benefits may be based on a new drug list when their plans renew in 2022.
- Discuss your patients' benefits during an office visit or confirm their benefits by calling the number on their ID cards.
- Review the prescription drug list before prescribing medications.
- If your patients need a coverage exception or prior authorization request in order to take a medicine that may be excluded from coverage or included in a utilization management program, please visit the Prior Authorization/Step Therapy Programs section of our provider website at bcbsnm.com/provider for the form and more information.

Treatment decisions are *always* between you and your patients. Coverage is subject to the terms and limits of your patients' benefit plans. Please advise them to review their benefit materials for details.

DRUG LIST CHANGES

Based on the availability of new prescription medications and Prime's National Pharmacy and Therapeutics Committee's review of changes in the pharmaceuticals market, some revisions (drugs still covered but moved to a higher out-of-pocket payment level) and/or exclusions (drugs no longer covered) will be made to the BCBSNM drug lists. Your patient(s) may ask you about therapeutic or lower cost alternatives if their medication is affected by one of these changes. **Changes effective July 1, 2022 are outlined below.**

The July Quarterly Pharmacy Changes Part 2 article with more recent coverage additions will also be published closer to the July 1 effective date.

Drug List Updates (Revisions/Exclusions) - As of July 1, 2022

Non-Preferred Brand ¹	Drug Class/ Condition Used For	Preferred Generic Alternative(s) ²	Preferred Brand Alternative(s) ^{1, 2}

DISPENSING LIMIT CHANGES

The BCBSNM prescription drug benefit program includes coverage limits on certain medications and drug categories. Dispensing limits are based on U.S. Food and Drug Administration (FDA) approved dosage regimens and product labeling. **Changes by drug list are listed on the charts below.**

Please note: The dispensing limits listed below may not apply to BCBSNM members on the 2021 or 2022 Health Insurance Exchange (HIE) Drug Lists. Dispensing limits may be applied to these drug lists on or after Jan. 1, 2023.

BCBSNM letters all members with a claim for a drug included in the Dispensing Limit Program, regardless of the prescribed dosage. This means members may receive a letter even though their prescribed dosage doesn't meet or exceed the dispensing limit.

Effective Jan. 17, 2022:

Drug Class and Medication(s) ¹	Dispensing Limit(s)	
Basic, Enhanced, 2021 Health Insurance Exchange (HIE), 2022 HIE, Balanced, Performance an		
Performance Select Drug Lists		
Anti-COVID 19

¹Third-party brand names are the property of their respective owner * Not all members may have been notified due to limited utilization.

UTILIZATION MANAGEMENT PROGRAM CHANGES

- Effective June 1, 2022, the new Voxzogo Specialty PA program will be added to all standard pharmacy benefit plans on the Basic, Enhanced, 2021 Health Insurance Exchange (HIE), 2022 HIE, Balanced, Performance and Performance Select Drug Lists. This program includes the newly FDA-approved target drug Voxzogo. Members will need a prior authorization approval for coverage consideration.
- Effective July 1, 2022, the following changes will be applied:
 - The target drug Elyxyb (celecoxib) will be added to the Acute Migraine Agents PA program. This change applies to the 2021 HIE, 2022 HIE, Balanced, Performance and Performance Select Drug Lists.*
 - The target drug testosterone enanthate will be added to the Androgens and Anabolic Steroids PA program. This change applies to the Basic, Enhanced, Balanced, Performance and Performance Select Drug Lists.*
 - The target drug Rhofade (oxymetazoline hydrochloride) will be added to the Therapeutic Alternatives PA program. This change applies to the 2021 HIE, 2022 HIE, Balanced, Performance and Performance Select Drug Lists.*
 - The target drug diclofenac potassium will be added to the Therapeutic Alternatives PA program. This change applies to the 2021 HIE, 2022 HIE, Performance and Performance Select Drug Lists.*
 - The Colony Stimulating Factors Specialty ST program and target drugs Granix (tbo-filgrastim), Neulasta (pegfilgrastim), Neupogen (filgrastim), Nyvepria (pegfilgrastim-apgf), Releuko (filgrastim-ayow) and Udenyca (pegfilgrastim-cbqv) - will be added to the Basic and Enhanced Drug Lists. Members will not be notified of this change because auto - continuation of therapy (or auto - grandfathering) for all target drugs is in place.

^{**} The correct dispensing limit for Alinia (nitazoxanide) suspension is 150 mL per 30 days. The 7/1 dispensing limit letter incorrectly listed the dispensing limit as 180 mL per 30

PA Required for Select Testosterone Medication

Starting July 1, 2022, members filling generic intramuscular (IM) testosterone cypionate will be stopped at point-of-sale if they have a pharmacy claim for a commonly used appearance and performance enhancing drug (APED) within the past 90 days. Their provider will need to submit a PA request to Prime Therapeutics for coverage consideration.

Learn more:

- This change applies to members with the Androgens and Anabolic Steroids PA program.
- The following medications are viewed as APED
 - o Aromatase Inhibitor: Anastrozole, Letrozole, Exemestane
 - o Selective Estrogen Receptor Medication (SERM): Ospemifene, Raloxifene
 - o Tamoxifen
 - o Toremifene
- BCBSNM has identified significant fraud, waste and abuse from providers prescribing the above medications in combination with testosterone for off-label use in athlete and non-athlete bodybuilders.
- A review will be required to assess clinical appropriateness of the combined medications.

Member notices: Based on claims for an APED medication as noted above plus a testosterone medication as listed below, letters were mailed to affected members starting late April 2022.

Drug Category	Sample Drugs*
Androgens and Anabolic Steroids	testosterone cypionate im inj in oil 100 mg/ml,
	testosterone cypionate im inj in oil 200 mg/ml

^{*}Third-party brand names are the property of their respective owner.

Please call the number on the member's ID card to verify coverage, or for further assistance or clarification on your patient's benefits.

Members were notified about the PA standard program changes listed in the tables below.

Drug categories added to current pharmacy PA standard programs, effective July 1, 2022:

Drug Category	Targeted Medication(s) ¹		
Basic, Enhanced, Balanced, Performance and Performance Select Drug Lists			
Iron Chelation (name change from Deferasirox)	Ferriprox 500 mg tablets (deferiprone)*, Ferriprox 1000 mg tablets (deferiprone)*, Ferriprox twice-a-day 1000 mg tablets (deferiprone)*, Ferriprox 100 mg/mL oral solution (deferiprone)*		
Basic and Enhanced Drug Lists			
Cholestasis Pruritus	Bylvay 200 mcg (odevixibat)*, Bylvay 400 mcg (odevixibat)*, Bylvay 600 mcg (odevixibat)*, Bylvay 1200 mcg (odevixibat)*, Livmarli 9.5 mg/mL (maralixibat)*		
Opzelura	Opzelura 1.5% cream (ruxolitinib)*		
Tavneos	Tavneos 1 mg capsule (avacopan)*		
Tyrvaya	Tyrvaya (varenicline)*		
Balanced and Performance Select Drug Lists			

Combination NSAID**	Consensi (amlodipine/celecoxib), Duexis (ibuprofen/famotidine), Vimovo (naproxen/esomeprazole), Yosprala (aspirin/omeprazole)
---------------------	---

¹Third-party brand names are the property of their respective owner. * Not all members may have been notified due to limited utilization.

Targeted drugs added to current pharmacy PA standard programs, effective July 1, 2022:

Drug Category	Targeted Medication(s) ¹	
Basic, Enhanced and Balanced Drug Lists		
Therapeutic Alternatives	diclofenac potassium	
Basic and Enhanced Drug Lists		
Acute Migraine Agents	Elyxyb (celecoxib)	
Therapeutic Alternatives	Rhofade (oxymetazoline hydrochloride)	

¹Third-party brand names are the property of their respective owner.

Per our usual process of member notification prior to implementation, targeted mailings were sent to members affected by drug list revisions and/or exclusions, dispensing limit and prior authorization program changes. For the most up-to-date drug list and list of drug dispensing limits, visit the Pharmacy Program section of our Provider website.

If your patients have any questions about their pharmacy benefits, please advise them to contact the number on their member ID card. Members may also visit *bcbsnm.com* and log in to Blue Access for MembersSM (BAMSM) or MyPrime.com for a variety of online resources.

Change in Benefit Coverage for Select High Cost Products

Several high cost products with available lower cost alternatives will be excluded on the pharmacy benefit for select drug lists. This change impacts BCBSNM members who have prescription drug benefits administered by Prime Therapeutics. This change is part of an ongoing effort to make sure our members and employer groups have access to safe, cost-effective medications.

Based on claims data, members were notified about the following changes to be effective July 1, 2022. Please talk to your patient about other products that may be available.

Please call the number on the member's ID card to verify coverage, or for further assistance or clarification on your patient's benefits.

Product(s) No Longer Covered ^{1*}	Condition Used For	Covered Alternative(s) ^{1,2}
PREGEN DHA CAP	PREGNANCY [†]	PRENATAL 19, VINATE M, PRENATAL+FE TAB 29-1, TRINATE, SE-NATAL 19

¹ All brand names are the property of their respective owners.

^{**} This PA program already applies to the Basic, Enhanced, 2021 Health Insurance Exchange (HIE) and 2022 HIE Drug Lists.

² This list is not all-inclusive. Other products may be available.

- * This chart applies to members on the Basic, Multi-Tier Basic, Enhanced and Multi-Tier Enhanced Drug Lists.
 † The prenatal products also apply to members on the Balanced, Performance and Performance Select Drug Lists.

Other high cost products that either are new to market or have therapeutic equivalents available have also been excluded. Please note: Members were not notified of these changes because there is no utilization or the pharmacist can easily fill a member's prescription with the equivalent without needing a new prescription from the doctor. The following drugs are excluded on select drug lists:

Product(s) No Longer Covered ^{1*}	Condition Used For	Covered Alternative(s) ^{1,2}
DEXILANT CAP 30 MG and 60 MG DR	ACID REFLUX	DEXILANT
DIPHENHYDRAMINE ELIXIR 12.5 MG/5 ML	ALLERGIES	OTHER MANUFACTURERS

ORPHENADRINE W/ ASPIRIN & CAFFEINE TAB 25-385-30 MG	MUSCLE PAIN	CYCLOBENZAPRINE, ORPHENADRINE

- 1 All brand names are the property of their respective owners.
- 2 This list is not all-inclusive. Other products may be available.

 * This chart applies to members on the Basic, Multi-Tier Basic, Enhanced and Multi-Tier Enhanced Drug Lists.
- † The prenatal products also apply to members on the Balanced, Performance and Performance Select Drug Lists.

Prime Therapeutics LLC is a pharmacy benefit management company. BCBSNM contracts with Prime to provide pharmacy benefit management and related other services. BCBSNM, as well as several independent Blue Cross and Blue Shield Plans, has an ownership interest in Prime. MyPrime.com is an online resource offered by Prime Therapeutics.

The information mentioned here is for informational purposes only and is not a substitute for the independent medical judgment of a physician. Physicians are to exercise their own medical judgment. Pharmacy benefits and limits are subject to the terms set forth in the member's certificate of coverage which may vary from the limits set forth above. The listing of any particular drug or classification of drugs is not a guarantee of benefits. Members should refer to their certificate of coverage for more details, including benefits, limitations and exclusions. Regardless of benefits, the final decision about any medication is between the member and their health care provider.
