

Pharmacy Program Updates: Quarterly Pharmacy Changes Effective Jan. 1, 2022 – Part 2

IMPORTANT PHARMACY BENEFIT REMINDERS

Jan. 1, 2022 is the start of a new year and renewed or new health insurance benefits for most Blue Cross and Blue Shield of New Mexico (BCBSNM) members. As you see your patients, please consider the following reminders:

- Members' benefits may be based on a new drug list when their plans renew in 2022.
- Discuss your patients' benefits during an office visit or confirm their benefits by calling the number on their ID cards.
- Review the prescription drug list before prescribing medications.
- If your patients need a coverage exception or prior authorization request in order to take a medicine that may be excluded from coverage or included in a utilization management program, please visit the Prior Authorization/Step Therapy Programs section of our provider website at bcbsnm.com/provider for the form and more information.

Treatment decisions are *always* between you and your patients. Coverage is subject to the terms and limits of your patients' benefit plans. Please advise them to review their benefit materials for details.

This article is a continuation of the previously published [Quarterly Pharmacy Changes Part 1 article](#). While that part 1 article included the drug list revisions/exclusions, dispensing limits, utilization management changes and general information on pharmacy benefit program updates, this part 2 version contains the more recent coverage additions, utilization management updates and any other updates to the pharmacy program.

DRUG LIST CHANGES

Based on the availability of new prescription medications and Prime's National Pharmacy and Therapeutics Committee's review of changes in the pharmaceuticals market, some additions (new to coverage) and/or some coverage tier changes (drugs moved to a lower out-of-pocket payment level) will be made to the BCBSNM drug lists.

Please note: Revisions (drugs still covered but moved to a higher out-of-pocket payment level) and/or exclusions (drugs no longer covered) were included in the [Quarterly Pharmacy Changes Part 1 article](#). Your patient(s) may ask you about therapeutic or lower cost alternatives if their medication is affected by one of these changes.

Changes effective Jan. 1, 2022 are outlined below.
